R. T. GENRTY, FOR COUNTY

TREASURER. The fact that we have not given space to an cles and editorials in regard to Mr. Gentry, and his candidacy for Treasurer of Pertis County, is not owing to any want of interest in his success, but because we have deemed it inexpedient to give time and ep oe where nothing seems necessary to el ction.

The Execution of Isaacs.

Upon another page will be found a full account of the execution of Richard T. Isaacs, together with an account of his lite and his confession of his crime; also the details of the murder, his trial and conviction, and an interview with him by a representative of this paper. In this connection we will state that the Bazoo in indebted for an account of the life and confession of Isancs to Mr. J. E. Payne, editor of the Harrisonville Courier.

The case of Isaacs was a peculiar one He was in love with and engaged to a young lady, and in order to marry her he planned and executed his terrible crime. The recklessness with which he committed it, and the entire lack of all precaution ofterward, show an almost imbecile mind. When captured he tully confessed the deed, restored the money, insisted upon pleading guilty, and gladly welcomed death.

His trial, presided over by Judge Givan, was a fair and impartial one, and the sentence a just one. Sheriff Stevens performed his disa-

greeable duty in the most thorough and efficient manner, and preserved good order throughout the day. In the latter he was ably assisted by Mayor Cummings of Har- County Teacher's Institute was held in that riconville.

And thus, with utter indifference on both sides, the opportunity of lending an idle \$15,000, which would seem to most people such a momentous matter. even though the interest was small, is dismissed by manager and clerk,

King Gould was graciously pleased however, to let the price of interest down almost as quickly as he had raised it. It seems that he was very much in need of certain stock, and that raising the rate of interest was a counted on. The average will probably not be over three barrels per sore. The quantity that was planted last spring will be the principal cause of having enough to do as here without shipping any.
